

DIVIDENDS

According to our shareholder policy, an investor needs to subscribe to MyMINEUM platform and hold at least 10 000 MNM in order to get dividends.

100% of the profits will be sent as dividends to shareholders.

A vote will be held within the first few weeks after the end of the ICO for shareholders to decide about the frequency they would like the dividends to be paid. It is important to notice that a delay of up to two weeks may be needed to send the payouts. For example, if the exercise ends on July 1st, the dividends will be paid somewhere between July 2 and July 15th.

The other 51% will be divided into four (4) categories

- Research & Development (25%)
 - This part will act as an extra budget for the Research & Development program. It will be added to the voted budget by Shareholders.
- New Equipment (25%)
 - This part will act as an extra budget for the acquisition of new equipment. It will be added to the voted budget by Shareholders.
- Creation of New Bounties (25%)
 - This part will act as the creation of new bounties. Including contest, social media bounty or similar area.
- MINEUM Core (25%)
 - This part will go to the core team.
